Spring is Here!

Spring 2015

In the profile of a Lincoln High School student it talks about being life-long learners. What does that mean? It means that we will never totally arrive or know all things. There is always something to learn. That is an important part of the Christian life. No matter how many years we have walked with Christ, daily we are learning. In the spring season we look around at the trees and flowers and plants and how they flourish. We are reminded of the growth taking place in each of us whether we can see it or not.

SPIRIT Week

That time of the year has come. A time where creativity and hard work from both parents and kids from every grade shows up each morning. It seems that every year it gets better and better.

Teachers do a wonderful job getting students pumped up by “getting in to the mood.” Thank you teachers, kids and parents for making this Spirit Week an awesome one!

Knowing our Staff

The past few weeks have been pretty busy. I graduated from Harding University, celebrated Christmas with my family, moved to Guadalajara, and started my first teaching job! Despite the craziness, this month has been full of blessings. I could not have asked for a better class of second graders, or better co-workers to share this experience with. God is good all the time, and all the time God is good.
